About

Yinbeier & Inborn FilterTM

Yinbeier manufactures a complete line of **replacement filter element** for industrial production

Hengshui Yinbeier Hydraulic Filter Co., Ltd. established in 2003 and began with producing and researching hydraulic filter elements. During years of researching and development, we have grown into a professional company, which is specialized in manufacturing, designing and customizing industrial filter element for customers from all over the world.

We have more than 10 production lines which cover hydraulic oil, air dust, water, compressed air, fuel and coolants industrial filter elements.

We brought in more than 200 sophisticated equipment and the annual output is more than 100 millions filter elements, which can satisfy the large and urgent orders of our customers.

We have more than 500 workers until now. And the company regularly organize training and assessment to ensure that all staff are in the best condition and can get the latest technology and skills.

Engineering Machinery Filter Elements

Oil, Fuel & Air Filter Elements

Engineering machinery filter elements mainly include air, oil and fuel filter elements. They can help to protect the core components of engineering machinery, save labors, reduce downtime, speed up construction schedule and guarantee the construction quality.

Oil filter element

effectively filter impurities in the oil, reduce the oil flow resistance, ensure lubrication, and minimize the wear of each component in the process of operation.

Fuel filter elements

are used to filter impurities (dust, iron filings, metal oxides and oil sludge) in the fuel, protect fuel system from blocking, improve combustion efficiency and ensure the stable operation of engine.

Air filter

locates at the intake system of engine. It can effectively purify the air entering the cylinder, reduce the early wear of cylinder, piston, piston ring, valve and valve seat and assure the normal operation and power output of engine.

Applications

The filter element is widely used in hydraulic forklift, excavator, bulldozer, big forklift, pile driver, all kinds of drilling machines, cement transport truck, cement mixing truck, crane and other construction machinery hydraulic system

Replacement Filter Elements

Yinbeier manufactures a complete line of replacement filter elements for engineering machinery, our Inborn Filter™ are functionally and dimensionally interchangeable with industrial OEM filter manufacturer elements.
