About

Yinbeier & Inborn Filter™

Yinbeier manufactures a complete line of **replacement filter element** for industrial production

Hengshui Yinbeier Hydraulic Filter Co., Ltd. established in 2003 and began with producing and researching hydraulic filter elements. During years of researching and development, we have grown into a professional company, which is specialized in manufacturing, designing and customizing industrial filter element for customers from all over the world.

We have more than 10 production lines which cover hydraulic oil, air dust, water, compressed air, fuel and coolants industrial filter elements.

We brought in more than 200 sophisticated equipment and the annual output is more than 100 millions filter elements, which can satisfy the large and urgent orders of our customers.

We have more than 500 workers until now. And the company regularly organize training and assessment to ensure that all staff are in the best condition and can get the latest technology and skills.

Air Compressor Filter Elements

Filter Elements of Air, Oil & Separator in Air Compressor

Air compressor filter element are vital part in air compressor system. It help to supply pure compressor air, supply enough power, reduce downtime and guarantee the normal operation of whole equipment.

Air intake filter elements

They are installed at the intake of air compressor and are used to filter particles in the gas and protect screw rotor from abrasion and prevent blocking of oil filter and oil and gas separator filter.

Oil filter

It is used to eliminate the particles, impurities, carbon deposition metal filings in the lube oil and guarantee the normal operation of air compressor.

Oil and gas separator

It can eliminate the tiny oils entrained in the compressor air, purify compressor air and improve compressor air quality.

Applications

The air compressor filter elements can be used in both double screw rod air compressor and reciprocating compressor.

And they are widely used in various fields, such as:

- Metal surface treatment (polish and sand blasting)
- Seawater desalination
- Waste water treatment
- Conveying system in food and drinking industries
- Coal mine exploring
- Natural gas and petroleum exploring
- Hardware industry
- Laser cutting
- Agriculture

Replacement Filter Elements

Yinbeier manufactures a complete line of replacement filter elements for air compressor, our Inborn FilterTM are functionally and dimensionally interchangeable with industrial OEM filter manufacturer elements.
