About

Yinbeier & Inborn FilterTM

Yinbeier manufactures a complete line of **replacement filter element** for industrial production

Hengshui Yinbeier Hydraulic Filter Co., Ltd. established in 2003 and began with producing and researching hydraulic filter elements. During years of researching and development, we have grown into a professional company, which is specialized in manufacturing, designing and customizing industrial filter element for customers from all over the world.

We have more than 10 production lines which cover hydraulic oil, air dust, water, compressed air, fuel and coolants industrial filter elements.

We brought in more than 200 sophisticated equipment and the annual output is more than 100 millions filter elements, which can satisfy the large and urgent orders of our customers.

We have more than 500 workers until now. And the company regularly organize training and assessment to ensure that all staff are in the best condition and can get the latest technology and skills.

Compressed Air Line Filter Element

In-Line Filter Elements/Cartridges Purify Compressed Air

Compressed air line filter element is widely used in compressor air system and installed front and back of drying machine to effectively filter out the oil, water, tiny particles and other containment in the compressor air and guarantee the cleanliness of compressor air.

Functions

In-line filter elements are installed front and back of dryers in compressed air system, they can help:

- Remove oil, water and other contaminants from compressed air and supply high quality compressed air.
- Protect pipes, valves and pneumatic components.
- The in-line filter elements are manufactured from epoxy resin and fibers without silicon resin, which can minimize the pressure drop by 40%.
- Low maintenance cost and low consumption

Where Line Filter cartridges are Used for?

The line filter cartridges are installed at the front and back of the dryers in compressed air system, including Regenerative desiccant dryers and refrigerated dryers.

They are widely used in::

- Electronic component manufacturing
- Spraying system
- Food and drinking conveying system.
- Pharmaceutical manufacturing

Replacement Filter Elements

Yinbeier manufactures a complete line of replacement filter elements for air dryers, our Inborn Filter™ are functionally and dimensionally interchangeable with industrial OEM filter manufacturer elements.
